

## Press release Calendar Week 28/I

### Enhanced Usefulness for the Mondeo Estate

#### Rameder offers removable tow bar for new Ford mid-range vehicles

Distinctive design, innovative technology and large interior space; these are the selling points for the fifth generation Ford Mondeo. Now **Rameder** – Europe's leading transport solutions provider for cars – is expanding Mondeo's capabilities and converting the popular mid-range vehicle into a hauling machine.

Equipped with the removable tow bar by **Rameder**, the Estate can take on an impressive hauling weight of 2532 kilogrammes, more than enough for a standard, caravan or horse trailer. The practical hitch has a bearing load of 100 kilogrammes, which makes it ideal for heavy bicycle carriers. Mondeo drivers can order the automatic locking system from the online shop together with a 13-pole electrical set at [www.rameder.eu](http://www.rameder.eu) for EUR 404. Of course, **Rameder** also offers a rigid hauling device with screwed-on ball head for permanent hauling. The technical data are identical. The order price, including electrical set, is EUR 274.
