Race 2 – the fast way

The inexpensive Rameder towbar carrier for a safe transport of bicycles

If you need to go to the starting point of your next bicycle tour by car, use a convenient and safe **Rameder** carrier system. A particularly inexpensive variant offered by the German company is the **Race 2**, at www.rameder.eu available for €145. For only €10 more, you can get a foldable version, making access the trunk easier.

The **Race 2** has a 13-pole plug and can be mounted onto the towbar easily. At a payload of up to 30kg, you can take two bicycles. The movable tyre holder can be adjusted to various sizes. Oversize or Y-frames also don't pose any problem.

In the event of the loaded **Race 2** obscuring the third brake light, mandatory in many EU countries, **Rameder's** online shop provides a complete extension set for €49.99. Have a safe journey!
