The small space miracle - ready for large Towbars from Rameder for Hyundai i20 Active

An active family life requires a lot of flexibility - the suitable car must offer the same. When leaving the factory, the "small SUV" called Hyundai i20 Active is the almost perfect companion. In order to fulfil its tasks in all situations, **Rameder** provides the suitable trailer hitches at www.rameder.eu.

For families especially, a lot of storage space in the car is indispensable. Whether during holiday trips or when the children move out - a lot of space is needed. If the 326-litre boot capacity of the i20 Active is not sufficient, it can be expanded to substantial 1,042 litres. For the really big challenges, there is no getting around a hitch. The suitable detachable towbar made by **Rameder** is now available for Eur 195. If hitches are used more frequently, the rigid model offers itself. This is available for as little as Eur 129. The practical complete kit, consisting of the rigid trailer hitch and wiring harness with adapter, can be obtained for Eur 179,99. This means there is nothing to stop spontaneous bulk purchases, a relocation or other transport tasks.

In addition, the **Rameder** shop at www.rameder.eu offers additional numerous products around the topic of car and transport.
