

## Press release Calendar Week 49/I

### Enjoy winter! Rameder's effective car care products

A "used look" is very popular on clothing. In winter, it will also develop on cars. Splash water and salt on the roads take care of that. But in contrast to clothing, a used look on cars is not very trendy and may even damage the paint. So, check out **Rameder's** shop at [www.rameder.eu](http://www.rameder.eu) for winter car care products.

As a rule, in winter the bottom of a car will get dirtier than the top. And the bottom includes the wheels. Use the right [brush](#) (€3.99) and [rim cleaner](#) (€3.99) to clean them. With the [rim sealer](#) (€23.99) you won't need to clean them a lot since it seals both steel and aluminium parts and provides permanent protection against dirt and water. **Rameder** also sells various [cloths and sponges](#) for the inside and outside of your car.

You also need a clear view in winter. Use our [de-icing spray](#) (€2.99) for your windows, side mirrors and headlights. Inside, a little preparatory work can also make life easier. There is, for example, our [window antifreeze concentrate](#) (€2.99) for the lights and windscreen washer system, which will keep the liquid fluid and provide a clear view. **Rameder** also sells a [radiator antifreeze concentrate](#) (€3.19), which protects against corrosion and calcination all year round and in winter also against frost. For absolute safety, use the [anti-freeze tester for cooling systems](#) (€9.98) to check the frost protection temperature in a reliable fashion.

The **Rameder** shop at [www.rameder.eu](http://www.rameder.eu) has many more automotive and transport products, including a number of ski racks and many accessories for your car.
